

## Services

### Where Patient Care Comes First

When it comes to urologic care, we offer a full scope of treatments to foster the well-being of each patient. From urogynecology to oncology, you'll find a team of compassionate, open-minded doctors that will put your care—and comfort—first.

Many procedures some of which include cystoscopy, vasectomy and prostatic biopsy can be performed in our modern up-to-date office located in Englewood. We also provide both extensive diagnostic testing and screening tools at our facility. At Urologic Specialties, we make each experience with us as comfortable and convenient as possible.

With a wide range of medical capabilities, our team specializes in:

- Vasectomy
- Cystoscopy
- Prostate Biopsy and Ultrasound
- Urodynamic testing

We also treat:

- Enlarged prostate (BPH/benign prostatic hyperplasia)
- Prostate Cancer
- Urinary Incontinence
- Kidney Stones
- Male Infertility
- Urinary Tract Infections
- Impotence and Erectile Dysfunction
- Kidney, Bladder, and testes cancer
- Overactive Bladder
- Prostatitis

Our doctors are affiliated with Englewood Hospital and Medical Center in Englewood, New Jersey, where Dr. Andronaco is the chief of urology; Holy Name Hospital in Teaneck, Palisades General Medical Center in North Bergen, and The Valley Hospital in Ridgewood, New Jersey.

Are you ready to make an appointment at Urologic Specialties, or have a question about seeing one of our doctors? Just

contact us at 201.569.7777 or email us at [kidney@nj.rr.com](mailto:kidney@nj.rr.com).
